The Honorable Forrest H. Anderson
The Governor of Montana
State Capitol Building
Helena, Montana 59601

Dear Governor Anderson:

In accordance with the requirements of Section 82-4002, R.C.M., 1947, there is herewith transmitted to you the report of the Livestock Commission covering Fiscal Year ended June 30, 1971.

Major accomplishments during the year included:

More than 2½ million head of livestock inspected for brands;

Re-recorded 25,540 livestock brands;

Accomplished first phases of Reorganization;

Recommendations to facilitate the achievement of goals include:

Retain the portion of Article XII, Section 9 of the Montana Constitution pertaining to livestock;

Increase appropriations for investigations and personnel training;

Increase inspection fees to meet increased costs;

Improve effectiveness of Predator Animal Control;

Amend change of ownership law.

Very truly yours,

Wm. G. Cheney
Executive Officer

-------------------------	--------

GENERALLY

The statutes relating to the operation of the Livestock Commission are contained in Titles 3, 46, 52, 93 and 94 of the Revised Codes of Montana, 1947.

Section 46-104 RCM, 1947 describes the duties and powers of the Commission as that of protecting and fostering the livestock industry in the state.

LIVESTOCK INSPECTION AND CONTROL

Under the present program structure, this program is the administrative branch of the agency, responsible for the protection of the livestock industry from theft and loss. Under this program we have the duty of recommending legislation and instituting market regulation (Refer 46-907, RCM) that will foster and protect the State's livestock industry. This program also has the responsibility of governing and regulating the recording and use of livestock brands, and the filing of security interests.

PREDATORY ANIMAL CONTROL

This program is charged with the responsibility of the control of predatory animals capable of injuring or killing domestic livestock and poultry. The program is carried on in cooperation with the Fish and Game Commission, the U. S. Bureau of Sport Fisheries and Wildlife and the counties of the State.

RABIES CONTROL

The rabies control program was established through appropriation from the General Fund by the Legislature in 1967 to control rabies outbreaks in rodents, scavengers, and predatory animals, thereby protecting human life, domestic livestock and game animals. This program is a joint effort of the Livestock Commission, Livestock Sanitary Board, Fish and Game Commission, the U.S. Bureau of Sport Fisheries and Wildlife and the Board of Health.

PRINCIPAL GOALS

Since the Livestock Commission was created for the purpose of protecting and fostering the livestock industry, our goal is to maintain a highly trained staff of professional stock inspectors, investigators and clerical personnel to serve the industry in whatever way may be required within our legal and resource limits, and to assist in the prosecution of trials when livestock laws have been violated.

MAJOR ACCOMPLISHMENTS SUMMARIZED

<u>PRIORITY</u>	<u>DESCRIPTION</u>	<u>PROGRAM</u>
1.	More than 1 million cattle inspected at markets.	Inspection and Control
2.	Re-recorded 25,540 livestock brands.	Inspection and Control
3.	Inspected 77,458 shipments of livestock at markets.	Inspection and Control
4.	Recorded 4,410 new brands and transfers.	Inspection and Control
5.	First phases of Executive Reorganization accomplished.	Inspection and Control
6.	Reduced mill levy on "other livestock" by one-half mill.	Predatory Animal Control
7.	Work accomplished with three less full-time positions.	Predatory Animal Control
8.	Held positive rabies incidents to three.	Rabies Control
9.	Forty-nine investigations resulting in court action.	Inspection and Control
10.	Filed 6,490 mortgage notices, renewals, assignments and satisfactions.	Inspection and Control
11.	Two market hearings were conducted.	Inspection and Control

MAJOR ACCOMPLISHMENTS DESCRIBED

1. More than 1 million cattle inspected at markets.

The first year on record is 1970-71 of 1,015,694 cattle being inspected at markets. This was accomplished with the same number of market inspectors as has been employed the past several years.

2. Re-recorded 25,540 livestock brands.

Since January 1, 1971 we have re-recorded 25,540 livestock brands at a total cost of \$48,513.64, or \$1.90 per brand. Considering the amount of detail and paper work involved in this process, we feel this is a real accomplishment in efficiency. The above cost does not include recording the information in the brand files at the 19 brand offices outside Helena.

3. Inspected 77,458 shipments of livestock at markets.

Of the total shipments inspected, 3,280 shipments or parts of shipments, were held for proof of ownership representing about 4.25% of the total. This indicated a very thorough and efficient brand inspection program.

4. Recorded 4,410 new brands and transfers.

This is an increase of more than 100% over last year.

5. First phases of Executive Reorganization accomplished.

By June 30, 1971 we had completed the new organizational chart and functional chart for the new Department of Livestock.

6. Reduced mill levy on "other livestock" by one-half mill.

Mill levies for this program are now at four and one-half mills on taxable value of sheep and one mill on taxable value of other livestock.

7. Work accomplished with three less full-time positions.

The program year started with twenty-five District Field Assistants and ended with twenty-two District Field Assistants. This made it necessary to realign districts enlarging control areas of the remaining District Field Assistants.

8. Held positive rabies incidents to three.

Although this is two more incidents than last year, the incidents have been confined to the same general area. This would indicate the disease is under control.

Major Accomplishments Described

9. Forty-nine investigations resulting in court action.

While forty-nine investigations resulted in court action there were hundreds of minor and major investigations that did not result in court action because of lack of evidence and other factors necessary to bring a case to court.

10. Filed 6,490 security agreements.

The number of Security Agreements have remained consistant the last several years.

11. Two market hearings conducted.

These hearings involved change of management at the Dillon Market and change of ownership at the Kalispell Market.

MAJOR RECOMMENDATIONS SUMMARIZED

<u>PRIORITY</u>	<u>RECOMMENDATION</u>	<u>PROGRAM</u>
1.	That portion of Article XII, Section 9 of the Montana Constitution pertaining to livestock should remain unchanged.	Inspection and Control - also Predatory Animal Control
2.	Increase appropriated funds for investigative training of stock inspectors and for investigation purposes.	Inspection and Control
3.	Increase inspection fees to meet increased costs.	Inspection and Control
4.	Improve effectiveness of Predatory Animal Control.	Predatory Animal Control
5.	Amend change of ownership inspection law.	Inspection and Control
6.	Increase spending authority for the Division of Weights and Measures, Department of Agriculture.	

MAJOR RECOMMENDATIONS DESCRIBED

1. That portion of Article XII, Section 9 of the Montana Constitution pertaining to livestock should remain unchanged.

The portion referred to provides "...provided, that in addition to the levy for state purposes above provided for, a special levy in addition may be made on livestock for the purpose of paying bounties on wild animals and for stock inspection, protection and indemnity purposes, as may be prescribed by law, and such special levy shall be made and levied annually in amount not exceeding four mills on the dollar by the state board of equalization, as may be provided by law.

2. Increase appropriated funds for investigative training of stock inspectors and for investigation purposes.

Because of large districts assigned to District State Stock Inspectors (Investigative Officers) a decided increase of reported thefts have occurred. The connection of known criminals in livestock theft and the necessity to do more checking on trucks and trailers hauling livestock, justifies three (3) more officers being added at an approximate cost of \$40,000. There is a need also of approximately \$5,000. additional funds annually to train new investigating officers and for refresher courses for experienced officers.

3. Increase inspection fees to meet increased costs.

Inspection fees for livestock crossing county lines (Sec. 46-804 RCM, 1947) should be increased as follows:

1 to 12 head from 25¢ to 35¢ per head
12 to 30 head from \$3.00 to \$4.00
Over 30 head from 10¢ to 15¢ per head

Inspection fees at livestock markets (Sec. 46-804RCM, 1947) on incoming livestock should be increased 5¢ per head in each category.

4. Improve effectiveness of Predatory Animal Control.

Under present conditions the program is under-financed and under-staffed. A means of additional financing must be found to increase and train the staff of professional hunters and trappers employed by the U.S. Fish and Wildlife Service.

5. Amend change of ownership inspection law.

The change of ownership law (Section 46-801 RCM, 1947) should be amended to include brand inspection at change of ownership of livestock in every case rather than only upon entering a feedlot.

6. Increase spending authority for the Division of Weights and Measures, Department of Agriculture.

Because of the reliance of the Livestock Industry upon accurate scales and because the state is threatened with a cut-back in services, particularly the livestock scales because of insufficient spending authority, we strongly recommend additional spendable funds be made available to the Division of Weights and Measures for current operations.

PROGRAM DESCRIPTION

PROGRAM: LIVESTOCK INSPECTION AND CONTROL

GOAL

Reduce the loss of livestock due to theft, fraud, or other unlawful processes.

OBJECTIVES

To effectively enforce the livestock laws of the State, and accurately record livestock marks and brands.

To file security interests on livestock.

To complete the re-recording of brands which was approximately two-thirds complete by June 30, 1971.

To complete and implement the Executive Reorganization into the new Department of Livestock.

To implement the Livestock Dealer Act as provided for in Sec. 46-2901 through 46-2908 RCM, 1947.

ACHIEVEMENTS

Limited livestock losses by providing an effective livestock inspection program.

Conducted numerous investigations of reported livestock thefts.

Re-recorded 25,540 livestock brands and recorded 4,410 new brands and transfers.

PROGRAM: PREDATORY ANIMAL CONTROL

GOAL

Protect the livestock industry from loss by predatory animals.

OBJECTIVES

Control losses by predators without upsetting the balance of nature by maintaining a qualified, professional force of trappers and hunters.

ACHIEVEMENTS

Efficiently utilized available staff and resources to control the increase in predatory animals and predatory incidents.

Reduced the mill levy on "cattle and others" by one-half mill as made possible by adequate financing.

PROGRAM DESCRIPTION

PROGRAM: RABIES CONTROL

GOALS

Protect human life, domestic livestock and game animals from rabid animals and rabies outbreaks.

OBJECTIVES

Eradicate rabies incidents in Montana.

ACHIEVEMENTS

While rabies incidents increased over the previous year, we have kept it confined to the same general area of the state and apparently have it under control.

(1) Centralized Services Program activated January 1, 1972.

(2) Of this amount, \$7,854 was transferred to Centralized Services, the balance is savings.

(3) Savings due to wind-down of brucellosis program.

(4) Savings due to Executive Reorganization.

(5) Increased cost due to more investigations into livestock losses and demands for services.

(6) Dealer Licensing Program activated July 1, 1971.

(7) Meat Inspection Program discontinued May 1, 1971.
